FREQUENTLY ASKED QUESTIONS

Why should I order books by ISBN (International Standard Book Number)? Why can't I just use the title?

Use the ISBN to make sure you get the correct edition of the text. Use the 13 digit number whenever possible. Do not let a salesperson or publisher substitute a newer or revised edition of the text, as it will not be the same edition used in class.

How do I order books?

The easiest way is through the Varsity Web Store, our on-line vendor, which will be available through a link on the academy website, beginning July 1.

Do I have to order through this vendor?

No. You may purchase books wherever you choose, though some items are not available for individual purchase anywhere else.

Why is there a red line through some of the titles and ISBNs?

If there is a red line through a title, the text or workbook is no longer available in sufficient quantities and should not be purchased.

Why are some books marked "Not yet available" or "available locally, in season"?

Some books (such as the Advent Coloring Book) are generally available in local stores a few weeks before the time of year it is normally used.

If I order my own books through the Varsity Web Store, will they be the correct editions?

Yes. If you have any problem with your book order, the Varsity Web Store accepts returns within 30 days of purchase.

Will there be more updates throughout the summer?

As we are notified of any other changes, we will update the list.
